WHO ARE WE?

ATCOM Group is a private company according to the act of 1973 (Act 61 of 1973), a 100% black owned, BBB-EE level 1 accredited according to Act No.53 of 2003 Code of good practices and was found by Tebogo Matuludi in 2013. She is a qualified Electrical Engineer and Trade Test in Electrical Engineering. Her decade years and a half work experience comes from Mining Industries, Eskom and Panel Manufacturing, Transformers and Switchgear Companies with the aim of providing professional services to an industry that has a need for resources to bridge a gap between the companies and their clients in terms of the requirements and deliverables. ATCOM Group aims to create job opportunities and provide mentorship to its clientele. ATCOM GROUP's Services is committed to leading the industry with the next generation in Engineering. It was founded with a sole purpose of enriching the lives of our youth and gives them an opportunity to learn in order to be skilled and employable. This company will not only give youth some opportunities but will open doors to individuals that are looking to upgrade and improve their lives. ATCOM Group invests in developing and attracting great people to create a professional, diverse and flexible workforce. We listen to our customers to understand their needs and work with them to design integrated and responsive solutions. The aim is to turn our ideas and experience into better solutions and services for our customers.

GOALS & OBJECTIVES

Our goal is to provide our customers with the best quality products and with our team of passionate people, we pride ourselves on building great customer relationships. Our experience in this Field of ATCOM Group is extensive. No job is too big or too small and our services range from the simple task of installing a light switch to more challenging projects. We work closely with our customers, ensuring that the task or project is completed on time and on budget, using the highest quality products available. We also advise our customers of any cost saving measure that can be utilized and can assist with any safety requirements. By using our skills and experience we build ongoing and lasting relationships with our customers.

BUSINESS CONCEPT

We are working towards being the market leaders in Engineering Services and supply of operational spares. We are working towards establishing a long-term relationship and repeat business customers. We understand that building a quality and reliable service with our clients may take so many years. By taking the time to understand our customer's individual requirements we ensure we provide them with the best solution based on our technical knowledge and experience.

Quality

Focusing on building a reputation relationship with our clientele by providing a superior service and quality products with the highest added value.

Integrity

We will continue to establish the highest ethical standard and trust with our working partner by offering professional business practice.

Respect

We respect and accept the differences in others and work together as an organisation to build a diverse workforce.

Commitment

We endeavor in finding solutions for our clients that best achieve their goals and deliver what we have committed to do, on time, within budget and to the highest standard.

Professionalism

We promote a working environment where all team members are aware of the need to represent the ATCOM Group in a professional manner. We truly understand the importance for all our employees to be viewed as a collective, responsive and proactive team. This in no small way ensures the success of each project and our organisation as a whole.
